- CCNAv7: Switching, Routing, and Wireless Essentials
- Data Science
- NDG Linux Essentials

PROJECT

MOVIE RECOMMENDER SYSTEM

Mar - 2024
- The recommendation system analyzes the past preferences of the user concerned, and then it uses this information to try to find similar movies.
- Information on users' past behavior (e.g., viewing history, ratings) is crucial for personalizing recommendations.

.

CRICKET _SCOR _PREDICT

sep-2024
- Developed a machine learning model to predict cricket scores using data preprocessing, feature engineering, and regression techniques.
- Cricket Score Prediction Model: Analyzed historical match data and player statistics to build a regression model predicting team scores in limited-overs matches.

Guru Academy(In MERN)

Nov-2024

- "Empower your learning journey with Guru Academy! Access online courses, expertly crafted PDFs, and insightful books – all at your fingertips."
- "Your education, your way! Buy online courses, PDFs, and books that match your pace and style – only at Guru Academy."

STUDENT MANAGEMENT SYSTEM(In JAVA)

jan - 2024

- A Student Management System (SMS) is a comprehensive software platform designed to facilitate the management of student-related information and processes in educational institutions.
- Reduces administrative burden and paperwork, allowing staff to focus on more strategic tasks
- Empowers institutions with data analytics and reporting tools to make informed decisions.
